

# LED-KE 300 UV

## LED-KE 300 UV

- Extruded anodised EV1 aluminium
- Glass cover ESG 4 mm
- Depending on the application the luminaire can be equipped with UVA or UVB LEDs.
- The UVA radiation range is from 365 nm – 405 nm, the UVB radiation range is from 305 nm – 275 nm.
- The luminaires have a flicker-free dimming from 100 – 1 % power.
- The electrical feed is over IP65 Wieland plug connection for load and control side.
- The luminaires must be connected individually and they don't have a feed-through wiring.
- Power: 250 Watt
- In order to hang up the luminaires we recommend our hooks ZUB Haken 1-3.
- Measurements: L: approx. 330 mm B: approx. 298 mm H: approx. 203 mm
- Weight: approx. 14 kg.
- The driver unit is delivered in a separate housing and can be inserted above the luminaire.
- Protection class: I
- Protection: IP65
- Voltage: 230 Volt 50 Hz
